## ➤ Sales and Purchases

Same as Sales, users can search and edit Purchases based on ID. If the user edited the entry, it will generate a new one with the latest ID and void the old one. The amount will also be set to 0 if the entry is void.

### Welcome

This option will not appear to users who do not have the access.

## Sales Invoice

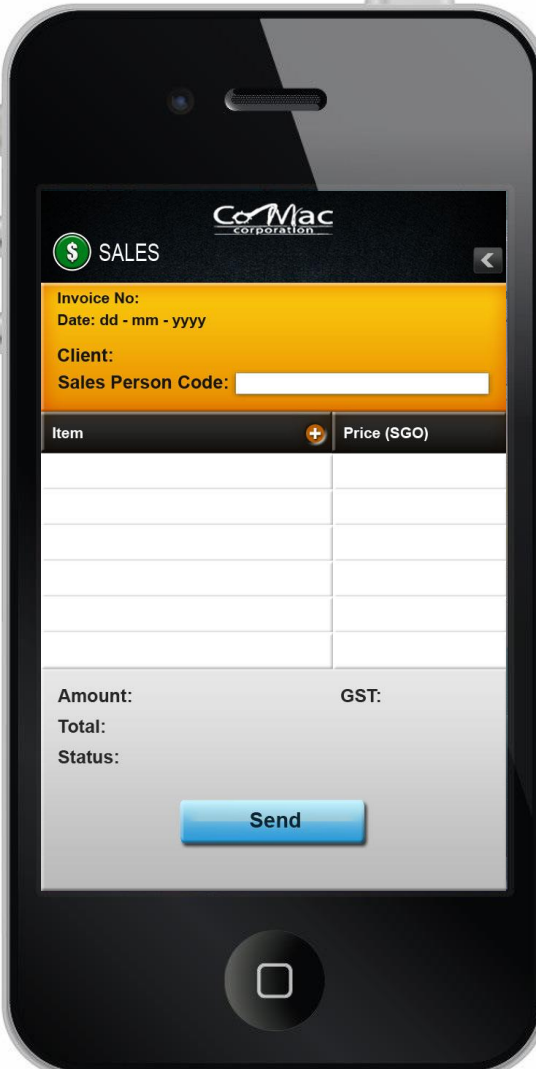

Client information can be inserted via the “+” sign.

Invoice No:	
Date: dd - mm - yyyy	
Client:	
Sales Person Code: <input type="text"/>	

Item	 Price (SGO)

## → Sales Invoice

Invoice number will be generated incrementally by the server and returns it to the app.

An invoice layout will be generated and forward to the default email app. User can then send the invoice from there.
